

The **HEDRICH GROUP** is a medium-sized company and market leader in equipment design and construction for vacuum applications in the electrical, wind power and automotive industries with a total of 220 employees at three locations worldwide. Our daily drive is a passion for innovation and first-class quality.

We rely on the know-how, experience and creativity of our valuable employees.

We have recently expanded with an office in the US and would like to strengthen our team there. We are looking to fill the following role immediately:

Whom we are looking for:

- College Degree and/or technical vocational training
- Experience in the field of plant construction, ideally of process engineering plants
- Experience with start-up, maintenance and service of systems both at home and abroad
- Willingness to travel worldwide
- Good IT skills (MS Office)
- You have the power to persuade customers, are success-oriented and pragmatic
- Experience with PLC programming and excellent mechanical skills desired

What you will be responsible for:

- Independent implementation and monitoring of assembly and start-up of vacuum systems primarily in the US, with training in Germany and the potential to travel globally
- Collaboration in manufacturing, construction and testing of vacuum systems
- Assembly of sub-assemblies and plants based on drawings and parts lists
- Carrying-out maintenance, repair, servicing and modernization work at the customer's site
- Instruction and training of customer's personnel

What we are offering:

- Flexible working-time arrangements
- Competitive Pay
- 401k Retirement with Company Match
- Career and training opportunities
- Group Health insurance

- Flat hierarchies with plenty of creative freedom
- Modern and safe workplace
- Company covers business related travel expenses
- No need to move

Have we piqued your interest?

Then we look forward to receiving your application, stating your possible starting date and salary expectations, to our General Manager, Leon White (leon.white@hedrich-hna.com). Our colleagues would be happy to welcome you to our family environment with short decision-making processes and a pleasant working atmosphere!
